

Norafin Solutions for ASPHALT FILTER MEDIA

Norafin ®
materials for life

FILTRATION LINE

The background features a collage of industrial images. On the left, a tall industrial tower with multiple levels and a staircase is visible. A large circular inset in the center shows a close-up of a filter cake being burned, with bright orange flames at the bottom and black charred particles on the surface. The entire composition is overlaid with a pattern of hexagons in shades of blue and gold.

*Norafin continues to
proudly serve the asphalt
industry with over 20 years
of product development*

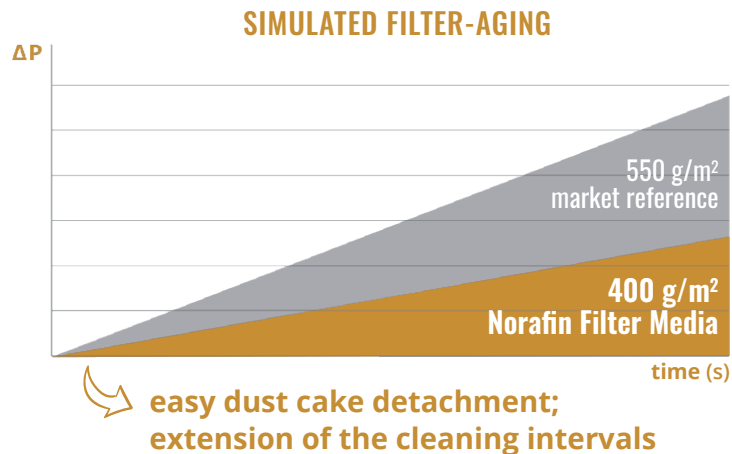

**Outstanding performance features
against strong loads:**

- ✓ High durability and long life time
- ✓ oleophobic treatment
- ✓ high-temperature resistance up to 240°C
- ✓ high filtration efficiency at low pressure drop and lower fiber weight
- ✓ better cake release due to a smooth surface

Norafin ®
CRYSTALEN

Your benefits:

- ✓ easy to convert
- ✓ conforms to the regulations with lower material consumption
- ✓ offer source quality warranty (e.g. DuPont)
- ✓ increase bag house efficiency without investment in a new bag house
- ✓ less energy consumption

Advantages according to cleaning methods:

- ✓ Good overall mechanical stability

- ✓ Good dust cake release, supported by **oleophobic treatment**

- ✓ **High burst stability** through unique fiber orientation
