

SHEEP'S WOOL NONWOVEN SOLUTIONS

VERSATILE
MULTIFUNCTIONAL
EFFECTIVE

Renewable Raw Material Reimagined

Our newly developed nonwoven combines the benefits of sheep wool with the functionality and softness of viscose.

Manufactured using our binder-free waterjet technology, it provides a high-performance solution for a variety of applications.

What makes sheep's wool fibers so effective?

Temperature and moisture regulating

It keeps the material breathable and efficiently absorbs and releases moisture, ensuring a pleasant microclimate and thermal comfort.

Antibacterial & self-cleaning

Thanks to natural lanolin

Fibers of natural origin

Biodegradable and renewable

Flame-resistant

Naturally heat-resistant up to 560°C

Odor-inhibiting

Neutralizes acids, which prevents bacteria or fungi the breeding ground is removed

Look out for our brand **Norafin® ECOLINE**.

It characterizes our nonwoven solutions, which are made from renewable and plant-based fibers – such as flax, hemp, sheep's wool, and cotton – as well as wood-based and renewable fibers, such as viscose, Lyocell, PLA, and recycled PET.

Developing these products to improve our environment inspires and motivates us every day. Together, we can develop innovative materials to protect our planet.

Norafin  [®]
ECOLINE

Nonwoven solutions made from sheep's wool and viscose

In addition to long-standing experience in the development and production of nonwovens made from flax and hemp fibers, our portfolio now includes products made from sheep's wool. The combination with viscose fibers makes the nonwoven durable, soft and particularly skin-friendly.

With our expertise in spunlace technology, we are able to produce outstanding light and fine nonwovens from sheep's wool.

**60% Sheep's wool
40% Viscose**

Product example

Where do we see the fields of application?

- ✓ **Hygiene products** (e.g. sanitary towels, diapers)
- ✓ **Textiles** (e.g. shoes, temperature regulation)
- ✓ **Construction materials** (e.g. insulation, drywall)
- ✓ **Filtration** (e.g. liquids, exhaust fumes, dust)
- ✓ **Cleaning** (e.g. sponges, wipes)

The various possibilities inspire us every day. Be our partner and let's move into a good future together.

We are your contact for nonwoven solutions in the field of natural fiber innovations.
