

CLEANING LINE

Norafin  <sup>®</sup>  
*materials for life*

We WORK  
precisely

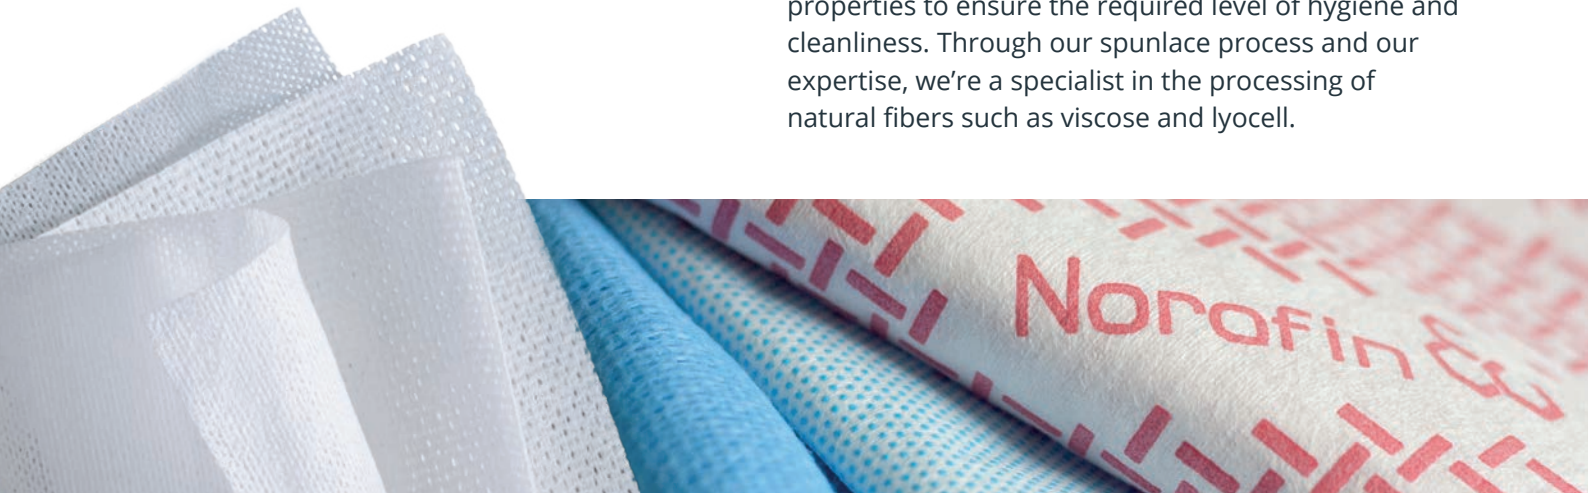

Norafin ®

## Clean better using our product solutions on your products.

Cleanliness is important at home and in a variety of industrial markets.

Our high-quality nonwovens combine all the desired properties to ensure the required level of hygiene and cleanliness. Through our spunlace process and our expertise, we're a specialist in the processing of natural fibers such as viscose and lyocell.

## *Streak-free*

For an effective cleaning, Norafin is your specialist for wipe solutions with specific fiber blends, structures, and properties.

Our functional solutions will meet high requirements and offer a clean solution for dirty situations.

- ✓ various colors, structures, and weights
- ✓ weight range between 30 – 200 g/m<sup>2</sup>

## *Fruity-fresh colors*

**Our four primary colors are the standard for industrial cleaning applications.**

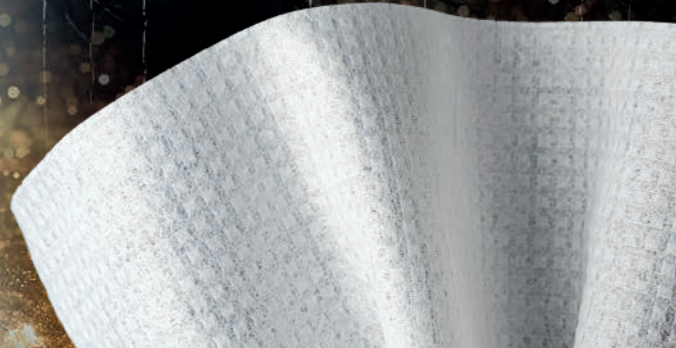

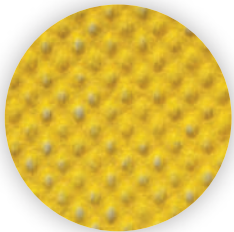

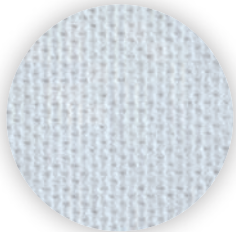

**Deviating colors are also possible on demand. Get in touch with us and let's define them in more detail.**

- ✓ **various colors**  
intensive and fade-resistant

# *The optimal structure makes the difference*

The structure can be optimized for specific applications. Dirt clings to the wipe and contributes to an effective cleaning.

✓ **different structures:** fine, coarse, extra coarse, or embossed (Norafin 3D PERFORMANCE®)

## *Working towards a sustainable future*

We believe it is important to develop ecological and sustainable wipe solutions. Thanks to the isotropic fiber orientation and our spunlace technology, we are able to process nonwovens such as viscose, lyocell, or natural fibers (e.g. flax or hemp) where their overall stability is comparable to materials with synthetic fibers.

✓ **biodegradable** and **recyclable**

Norafin  <sup>®</sup>  
ECOLINE

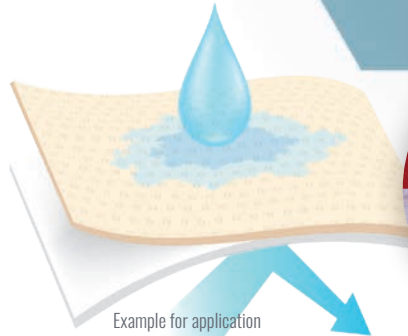

# *”DUO-TWIST“*

## *2 materials – 1 solution*

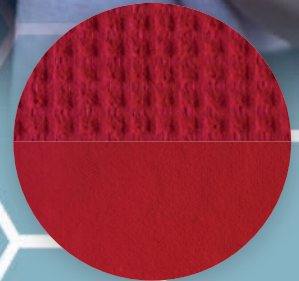

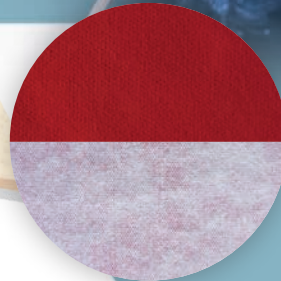

Our multi-functional nonwoven combines two material functions into one product. Through hydroentanglement, we combine two nonwoven layers with different properties and get a strongly bonded technical textile. The functional layers of our “Duo-Twist” wipe can differ in structure, color, weight, or fiber composition.

### **Possible wipe solutions:**

Cleaning | Polishing  
Hydrophilic | Hydrophobic  
Roughening | Planing  
Oiling | Removing  
2 - color solution

Example for application

*We are your contact for nonwoven solutions  
in the field of hygiene and cleanliness.*
